## MEDICAL DIRECTORY

**CENTRAL VALLEY  
PHYSICAL THERAPY**

**[WWW.CENTRALVALLEYPT.COM](http://WWW.CENTRALVALLEYPT.COM)**

### **ABOUT US:**

The Movement For Life® Team is made up of locally managed physical therapy clinics with company headquarters in San Luis Obispo, CA and rehabilitation services provided in convenient locations throughout California and Arizona. In San Luis Obispo and Northern Santa Barbara Counties, we are known as San Luis Sports Therapy and Orthopedic Rehabilitation. In the San Joaquin Valley our clinic is known as Central Valley Physical Therapy and in the delta region we are known as Delta Physical Therapy. In Arizona, we operate as Athlon Physical Therapy and in Coachella Valley, CA we are known as Avid Physical Therapy. The Movement for Life Team continues to be owned and operated by physical therapists.

### **ABOUT THE DIRECTORY:**

Our Medical Directory is a service our team provides to the communities we serve. By providing a free tool for reference, we can better support our network of physicians and patients to quality healthcare. The Movement For Life® Team operates under a unique "Collaborative Model" where the motto "All for one and one for all!" rings true. We work together towards common goals for mutual benefit not only within our clinics but within our communities.

### **TO UPDATE, ADD TO, OR DOWNLOAD A COPY:**

Visit: [www.centralvalleypt.com](http://www.centralvalleypt.com) and click "For Physicians" and then "Medical Directory" where you can submit an add/change form or download the latest version.

Updates to the directory are made at the end of each month online. We encourage each office to print updated versions of the directory regularly, or to keep the pdf linked to the desktop and utilize the "find" feature for easy reference. If your office needs assistance with this process or has an issue in printing, please call Heidi @ 209-969-3440 as she's happy to help. Paper copies will not be sent out beginning this year in our attempts to keep only the most updated information in circulation.
